### **4 EXECUTIVE SUMMARY**

Dissemination Kit will include templates for public information for all partners to be used when attending events, or conferences in general. The kit includes items such as the, project public presentations template and the Word Document template for official reports, deliverables and internal communication.

The Dissemination Kit is one of the Tool that the Consortium is using to Communicate, hence it will be used **in conjunction** with the below mentioned media. The full list of media includes:

- Project Website with Public Area and Internal Repository by Fraunhofer OwnCloud Private Area (reserved to project partners within the Consortium to store confidential information).
- Scientific and Technical Paper Publications. All publications will also be announced and made available on the CUBER Website.
- University Training.
- Newsletters and Press Releases.

The Dissemination Kit, as a Deliverable per se, is completed on ECD; the Consortium will include, in the Communication Plan intermediate internal releases, details of every event attended by a Consortium Partner, where the CUBER Project is the topic of a Keynote, a presentation or Poster. The Communication Plan will contain the specific presentation, conference speech, poster or any other media presented and they will be indicated with the specific event they are related to.

### **5 PROJECT WORD DOCUMENT TEMPLATE**

Project Document Template in Microsoft Word format has been designed, available and uploaded in the Fraunhofer-Cuber ownCloud at Workspace/WP8/Deliverables/D8.2/Word Document and to be used as only Official .doc template.

Current deliverables is based upon Official Project Document Template.
